

MILEY MARINE SURVEYING & CONSULTING, INC.

Toll free 1-877-897-4180

Boatpkr@aol.com

- The following statement concerning the procedures in the inspection of the subject vessel is for your information and benefit. Survey results will be transmitted *only to the person or persons authorizing this survey*. Please fill out the questions below, sign and return prior to survey being performed. Call 407- 443- 7052 if you have any questions.
- This surveyor recommends that all sailboat rigging be inspected by a qualified rigger. This surveyor does not ascend the mast. Sailboat surveys are performed at deck level only.
- The survey will include inspection of all parts of the vessel, where accessible, including the condition and safety of all accessible parts in order to determine the "fair market and replacement value of the vessel". Recommendations will include what must be done to insure safety and whether the boat is sound for its intended use.
- This surveyor urges that all gasoline and diesel engines, gears and pumps, heat exchangers, coolers, etc. be inspected by a qualified engine surveyor. I further recommend that a sea trial be performed and the vessel be hauled out for dry dock inspection of the wetted surface area of the hull and all underwater machinery.
- Only accessible areas will be inspected, and it is understood that the surveyor assumes no responsibility for any defects not found in non - accessible areas and is not responsible for conditions subsequently arising.
- The report will be prepared after a thorough visual and hands on inspection of the hull, rigging, hardware, systems, and equipment. The report will be submitted in good faith, without prejudice and constitutes a description of the condition of the vessel at the time of the survey. The report will not express or imply warrant, or guarantee the condition of the vessel. Also, you agree to pay all legal costs for bill collection if required. Past due monies will accrue interest at a rate of 1.5% per month until paid.
- THE MANDATORY STANDARDS PROMULGATED BY THE UNITED STATES COAST GUARD (USCG), UNDER THE AUTHORITY OF TITLE 46 UNITED STATES CODE (USC); TITLE 33 AND TITLE 46, CODE OF FEDERAL REGULATIONS (CFR), AND THE VOLUNTARY STANDARDS AND RECOMMENDED PRACTICES DEVELOPED BY THE AMERICAN BOAT AND YACHT COUNCIL (ABYC) AND THE NATIONAL FIRE PROTECTION ASSOCIATION (NFPA) WILL BE USED AS GUIDELINES IN THE CONDUCT OF THIS SURVEY.
